

Self-Assessment

We'll be having another self-assessment. As before,

- Type your answers in a new R script file with comments indicating where the answer to each question begins.
- Write down the current time. Please email us (at signaldatascience@gmail.com) with your R script attached after **2 hours** have passed.
- Work individually. You can however consult R documentation, look at old assignments, use the Internet, etc., but don't copy and paste code verbatim.
- Make your code as clear, compact, and efficient as possible. Use everything that you've learned!

Part 1: Probability

Part 2: Regularization
