Tomorrow we'll continue with the project described in "Week 3 Day 4: Predicting weight problems in terms of diet and exercise."

If you've been wanting to pair program again, tomorrow is a great time to restart. Because the project is open ended rather than hierarchical, you can work together on it even if you've already started, beginning by merging each other's work.

Respond to this email if you'd be interested in pairing tomorrow, and I'll assign pairs based on that.

Thanks,
Jonah
